Soccer

CAREER OBJECTIVE

My goal in April 2020 is to find a job as a Front-End Developer, so I currently spend my time improving my Javascript skills, building few applications with it, and learning React. Another Goal I have set aside is to buy a private domain to host my pages and my portfolio to make them more professional instead of only using GitHub.

EDUCATION

Bachelor Degree
BYU Idaho
- B.S. Applied Technology concentrated in Web Development – degree expected August 2023

Courses Taken:
- Frontend Development
- Visual Media
- Introduction to Programming
- Introduction to Web Development

SKILLS

Programming Language
- Javascript

Additional Skills

Self Taught Programmer	HTML5
Webpack	CSS3
Sass	Git
ES6+	

Languages
- English
- Portuguese

EXPERIENCE

Junior Frontend Developer
Self Employed
Tri Cities, WA (2017/Present)
Created 5 webpages in HTML5 and CSS3 (using Flexbox or Grid for a responsive design). In late December 2019, I used ES6+ to create the popular Snake Game (available on my GitHub). Right now (March/April 2020), I am involved with a final project for school class, using the same technologies I have been using lately.

Air Traffic Agent
Swissport Ltd.
Rio de Janeiro, RJ (2016/2018)
Sent and received e-mails, issued invoices to other companies; updated, created and closed flights' information on the airport inner system. Launched equipments' rental charge, created Excel spreadsheet about flight information, such as, arrival and departure time with its respective aircraft ID. Created report in Word, daily updated system for billing in integrated systems. Closed night shift and setup the morning shift on the following day.

Bilingual SAP Serice Desk
Tivit
Rio de Janeiro, RJ (2014/2015)
Recorded information of callings, and e-mailed them as documents with all the information received on the phone from SAP users to a higher level in the company.

SERVICE PROJECTS

The Church of Jesus Christ of Latter-Day Saints (2012 - 2014)
- Met 200 people from different social economic classes
- Provided community and charity work
- Worked as a volunteer for a self-reliance center
